- express
- python
- sql
- React,Next

INTERESTS

- Coding
- ui ux designing
- chess and cricket
- badminton

LANGUAGE

- ✓ English
- ✓ Hindi

EDUCATION

Sudarshan English High School **2015**
Secondary
Grades - **B**

Thakur Vidya Mandir **2017**
Higher Secondary
Grades - **B**

Shankar Narayan College of Arts and Commerce **2021**
Bsc-Computer
Grades - **B**

Viva College **2023**
Msc-Computer Science

EXPERIENCE

Fingertips system **27-02-2023 - 19-05-2023**
React Developer

PROJECTS

Cataract detection using CNN

Cataract detection using CNN MobileNet employs deep learning to automatically identify cataracts in eye images. Its lightweight design allows for efficient real-time deployment in medical settings, ensuring high accuracy in classifying normal and cataract-affected images, thereby enabling better vision care and early diagnosis.

Tic-tac-toe

The tic-tac-toe is a game in which two players are playing with symbols 'x' and 'o' and in a game having 9 boxes in which we have to connect the symbols horizontally or vertically.

Portfolio

HTML/CSS portfolio is a website that showcases a person's or a professional's work, projects, and skills. It is built using HTML for structuring the content and CSS for styling the layout and appearance. The portfolio typically includes sections like social media and project gallery, contact information, and possibly a resume or CV. It serves as a digital showcase to demonstrate the creator's abilities and achievements to potential employers or clients.

Joke App React

In the React joke app, we have used a joke API and React hooks. We use state and use effect. Basically, use effect is used when fetching API data and use state is used for storing state variables and for reflecting content in the screen, we use JSX.
